

RENEWABLE ENERGY CERTIFICATE ASSIGNMENT FORM FOR SOLAR WATER HEATERS

In an effort to meet its international obligations to reduce greenhouse gas emissions, the Federal Government has passed a law which requires electricity retailers to source 20% (by 2020) of their electricity from renewable energy sources. The Renewable Energy (Electricity) Act 2000 allows the owners of Solar Water Heaters to create Renewable Energy Certificates (RECs) which can be sold to others including electricity retailers in order to meet their target under the Act.
